BURNS, SUNBURNS, DIARRHŒA, CHAF-INGS, STINGS OF INSECTS, PILES, SORE EYES, SORE FEET, etc., etc.

THE WONDER OF HEALING!

For Piles, Blind, Bleeding or Itching, it is the greatest known remedy.

For Burns, Scalds, Wennds, Bruises
and Sprains, it is unequalled—stopping pain
and healing in a marvellous manner.

For Inflammed and Sore Eyes.—Its effect
upon these delicate organs is simply marvellous.

It is the Ludies' Priend.—All female
complaints yield to its wendrous power.

For Ulcors, Old Sores, or Open
Wounds, its action upon these is most remarktible.

thache, Facenche, Bites of In-Sore Feet, are certainly cured by POND'S EXTRACT. RECOMMENDED BY PHYSICIANS! USED IN HOSPITALS!

Constion.—POND'S EXTRACT has been instated. The genuine has the words "POND'S EXTRACT" blown in the glass, and our picture trade-mark on surrounding buf wrapper. None other tegenuine. Always insist on having POND'S EXTRACT. Take no other preparation.

It is never sold in bulk or by measure.

Owosso W.C.T.U. meets second and fourth Wednesday of each month; at 3 p.m., in Club Parlor, Salisbury

Cigarette Smoking.

A boy can never make a man of himself (says the N. O. Picayune) by smoking cigarettes, though he may succeed in becoming a sickly dwarf, ir he neglects other business and smokes industriously. A cigarette seems a very harmless object, but a physician who analyzed one found it anything but harmless. He says: The tobacco was strongly impregna-ted with opium, while the wrapper, which was warranted to be rice-paper, proved to be the most ordinary of white daper, whitened with arsenic, the poisons combined being presented in sufficient quantities to create in the smoke, the habit of using opium without being aware of it, and which craving can only be satisfied by an incessant use of cigarettes.

Indigestion habitual costiveness arise from weakness of the nerves and muscles of the stomach. Due attention to the proper habit of life in con-nection with the timely use of Brown's Iron Bitters, will strengthen the affected parts and quickly remove every symptom of the disorder.

Texas wool-growers will not vote for any man for congress who is not in favor of protective tariff. It is evident the Texas wool-growers are not sheep nor dyed-in-the-wool bourbons, though some of them may have wooly

No faimily Dyes were ever so popular as the Diamond Dyes. They never fail. The Black is far superior to logwood. The other colors are brilliant.

Ex-Secretary Evarts tells this story on himself with much gusto: At his farm in Vermont is a donkey, a famliy pet. One morning a daughter found the animal in a peculiarly dispondent mood, and caressingly remarked: "Poor fellow! are you lonesome? Well, never mind; papa will come home from New York tomorrow."

MAGNETIC MEDICINE—the great brain and nerve food-will restore lost nature to young, middle-aged and old. Life is too short to waste away. Read the advertisement in another column, and if you are afflicted make no delay in procuring the cheapest and best medicine ever

Call a young girl a witch, and she is pleased; call an elderly women a witch, and her indignation knows no bounds.

SKINNY MEN.

should send for instructions, reasonable terms, references, &c., to Edson Brothers. Solicitors of Patents, Washington, D.C., who furnish the same without charge. Edson Brothers is a well known and successful firm of large experience, having been established in 1866.

In harvesting Indian Corn and Wheat, we cut them long before the the grain-the seed, is ripe. When the grain in either is fully formed, the stalks are cut; experience hus shown that the ripening process goes on; the stalk contains sufficient nutriment to perfect the grains, and it does this after the plant is cut away from the root. Indeed, the grain thus treated, often comes to greater perfection, than if the plant were left until the seed is fully ripe. What takes place with these crop plants, also occurs with weeds. Many weeds, if cut up while in flower, still have nutriment enough in their stems and leaves, to perfect and ripen a crop of seeds. It therefore happens, that the mere cutting up of many weeds, and leaving them to dry upon the ground, does little toward their extermination. The common Purslane-or 'Pussley," for example, has remarkable vitality, its very succulent stems will remain alive for weeks, and even continue to grow after they have been deprived of the root. It is one thing to cut weeds with the hoe; it is equally important, and it should al-ways be done in gardens, to gather up weeds by use of a rake, and carry them to a brush heap, where they will ultimately be burned.—American Agriculturist for August.

Let Him Who Wins It, Bear the Palm

"He who cures the ills of flesh" quoth the sage, "is even greater than he who conquers in war." Certain it is then, that Dr. Swayne has earned Block; Mrs. H. N. Reed, President, the laurel of greatness. His Oint-Mrs. A. H. Parkill, Secretary.] ment for skin diseases has been the means of releasing thousands from the indescribable borrors of that complaint. The best evidence of an article is obtained by a practical test and the unsolicited indorsement of those who profit by its use.

KIDNEY-WORT **IS A SURE CURE**

KIDNEY-WORT

Albion College Notes.

From the Albion Republican.

This institution is displaying unusual life and vigor. A new course of study has been adopted, which cannot help enlisting the interest of the leading thinkers and educators of the country.

Prof. Dickie has been detailed by the board of trustees to visit the churches, educational conventions, ministerial associations, etc., to explain the purpose, plan of operations, and acquaint the people with the workings of the college.

Prof. S. D. Barr, of Cleveland, an eminent mathematician and teacher, will supply Prot. Dickie's place in the class-room during the year. The appointment is a very fortunate one for the college.

Miss. Rena Michaels, Ph. D., has been appointed Preceptress. She is a lady of superior education, genuine culture and personal refinement, and has made the modern languages, history and art criticism, a specialty.

To Miss. E. Josephine Clark has been tendered the position of Instructor. She is too well known to our citizens to need any word of commendation from us.

The foundation of the Conservatory of Music has been greatly enlarged. The friends of the college are rejoiced to know that Prof. Carl B Scheffler has been chosen Director of the Conservatory. The announcement has already resulted in the application for admission of a large number of music students. The work of the Conservatory will consist of

1. A course for pianist.

2. A course for organists.

3. A course for performers on orchestrial instruments, such as violin, violoncello, cornet etc.

Four teachers, at least, will be employed. An organ with two manuals is to be procured, and other C. B. BUSH. H. B. LEDYARD. Div. Supt., Bay City. Gen'l Manager, Detroit E. C. Brown, Assist. Gen'l Supt., Jackson. O. W. Ruudles, G. P. & T. A., Chicago. instruments to complete the equip-

Several large cases will be put in the museum, during the vacation, to accommodate specimens in mineralogy, natural history and botany, which will be received this summer.

Prof. Dickie expects in a few

This splendid weekly paper for stock breeders continues to improve FORT WAYNE & JACKSON R. R. as it grows older. The number now before us, that of August 3d, contains thirty-two pages, and is profusely illustrated with original engravings. On the first page is a beautiful picture of a Guernsey cow and calf. This is followed by a full-page engraving, showing a group of Jersey cattle, artistically arranged, and forming a most attractive picture. Then we have an engraving of the celebrated Polled Angus cow, old Grannie, at thirty-five years old, perhaps the most celebrated ow that ever lived-the mother of twenty-nine calves. Then there is a likeness of her breeder and owner, Hugh Watson, of Scotland; with a sketch of the famous old cow. Among the other leading articles is a very interesting one on "How Breeds are Formed;" another is a continuation of a series of articles on the Breeds of Sheep." Judge Jones contributes a chapter in his series, the "History of Short-horn Breeding in Ohio," Another valuable article is a description of the Scotch polled breeds of eattle. Horsemen will be delighted with the account of the races at Cleveland, and the description of the winners, with their pedigrees. In fact every department of live-stock is represented; and, with its usual miscellany and collection of news and gossip for breeders, makes a paper that would be cheap at its price even if it were issued only once a month instead of every week, as it is. The price is \$3,00 a year, or \$2,00 in clubs of ten. Published by J. H. Sanders & Co., Chicago.

The forestry laws of Kansas have een fruitful of permanent results. It is said there have been planted in that state 93,000 acres of trees.

The practice of going to Europe to travel and rest costs the United States about one hundred and twenty-five million of dollars annually.
